CONSULTATION!
let's talk!

If life changes in a way that calls for a new home with more helpful living we can also help.

Step 1: (Professional Organizing)

Keep items you need or use regularly and have space for

Donate items that are in good condition and worth giving to your favorite charity or the Goodwill

Sell items in good condition that are worth more than it would cost to organize the sale. If you know you're unlikely to get around to it **DONATE IT!**

Store items that you don't use regularly but you can't part with. Only keep what you have the available storage space for

Trash items that do not meet selling or donating standards. Don't hold on to items you know you will never get around to fixing, selling or donating

Step 2: (Finding The Right Place)

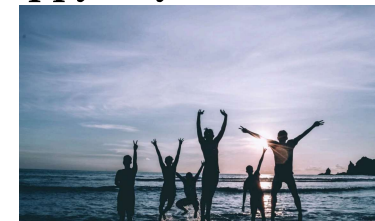

Step 3: (Moving into the new home with moving boxes that make sense!)

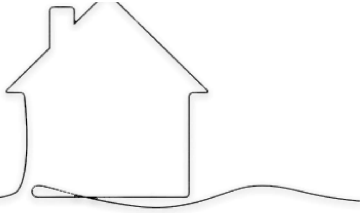

Step 4: (Laying out and placing every item in the spots YOU and I make together)
